

App for people in need – Come up with App name

- Homeless shelters
- Save Havens
- Food Banks
- Rehab programs
- Mobile medical stations
- Job stations?

-Log in for person in need

-Log in for shelters/ programs

-Take in current location

-Person can put in what support they need, shelters say how many people they can support and whether or not they are full

-Get statics how many people have cellphones, how many don't get support because they don't know where it is/ the place is already full

PLAN:

-Julia starts coding/ makes GUI

-Alexis works on app mockup

-David

* find havens, addresses, links, **resources**, phone numbers

*put relevant statistics on ppt

*how many people in need have smart phones, how many don't have help because they don't know where to go/ places are full, number of people in need in the US, average amount of people in need per state etc.

INFORMATION:

On a single night in January 2020, 580,466 people (about 18 out of every 10,000 people) experienced homelessness across the United States—a 2.2% increase from 2019.
